## Driver Installations :

### PC (Window 98SE)
1 Activate the system and enter installation CD in the
CD-ROM drive and find "Win98SE" submenu.
2 Double-click  "98Driver.exe" and follow guided
steps.

### PC ( Window ME, 2000, XP)
Does not require installation

### Notes:

The application software ( security & boot )only
can run with Microsoft Windows OS. The version
for Macintosh is currently under development at
time of releasing this manual. We will release it
when available. In Regard to the proper usage of
the these programs , please refer relevant
information listed on the CD-ROM.

### Macintosh (OS 8.6,9.X & OS 10.X)

Does not require installation

### (For Mac Users Caution) :

- after completing  the  software / hardware  installation,
please  reboot  the  system  before  officially  using  the
reader

- we don't recommend you switch the
"Write-Protect" on-line. with Mac OS 10.1.4.
it will cause the computer system hang when
you do the read or write operation.
