## Operating the DVD recorder

### If it does not change

After performing the following operations, press this button again.

1. Press [DVD RECORDER].
2. While pressing [ENTER], press and hold [8] for approximately 2 seconds.

### To return

In step 2 above, while pressing [ENTER], press and hold [9] for approximately 2 seconds.

The factory setting is [9].

### When using a Panasonic DVD recorder

Change the unit's remote control code to match the remote control code of the DVD recorder.

Preparations: Check the remote control code of the DVD recorder.

For about one second press [ENTER] and the button ([1], [2] or [3]) which is the same number as the remote control code set by the DVD recorder.

The factory setting is [1].

For selecting  
a re-master mode

# CODES

This remote control can operate Panasonic and Technics audio-visual equipment that has remote control sensors. You may need to change the remote control code.

It can also operate some other brands of televisions, video cassette players, and DVD players. Check the table for the brand and enter the code as follows.

## Changing the codes

The remote control outputs the on/off signal. If the code is correct, the equipment turns on or off. If it doesn't, try entering another code.

- Note that this remote control cannot operate some equipment and that it may not be able to perform some operations.
- Re-enter the codes after you change the batteries.
